

SQL Server Codeless Data Integration and Synchronization

Features & Benefits

The Layer2 Cloud Connector can integrate and sync your Microsoft SQL Server Analysis Services (SSAS) OLAP cube data with various other corporate data sources, applications and systems, on-premises or in the cloud, codeless and in just minutes:

- Connect and sync Microsoft SQL Server Analysis Services (SSAS) OLAP cube data to 100+ other sources, including Office 365 and SharePoint.
- No touch data integration: Does not require any customization or installation on both sides of sync.
- No programming or tools required: Setup in a few minutes guided by a wizard. Sample connection templates included.
- Flexible data query and mapping: Full SSAS data query syntax supported via OLEDB.
- Reliable architecture: A connection is established just for data synchronization – not for usage.
- Secure data transfer: The connector runs as a Windows service on a server in your corporate network where it could reach the connected systems. No data is exposed to any 3rd party.
- High performance: Works great with large data sets.
- 100+ data sources supported to connect: ODBC, OLEDB, OData, .NET-based providers, Excel/XML, Text/CSV, MS Access, Oracle, MySQL, IBM DB2, IBM AS/400, IBM Informix, PostgreSQL, SharePoint, Office 365, OneDrive 4B, Dynamics CRM/ERP, SAP, Microsoft Project, Active Directory, Exchange, Lotus Notes, XML/SOAP Web Services, File system etc.
- Many 3rd party data providers supported: Amazon, Azure, Google, Twitter, Facebook, Salesforce etc.
- Sync SSAS data with SharePoint and Office 365 for better reporting, sharing, views, search, change notifications, workflows, mobile and offline access.
- Cost-effective solution: One-time fee. No user CALs. End-users don't need SQL / SSAS licenses.

“Simple and easy to set up and install. Once you have your connection strings set up, it just does its thing without any attention or effort needed. Support is quick to respond and knowledgeable. Program seems 100% reliable so far.”

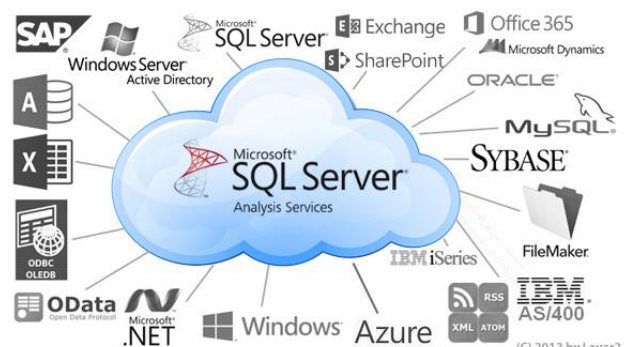

Adam R. Imbruglio,
IT Systems Support Specialist, Lifespan

Licensing & Partner Program

Licensing per installation. No user CALs required:

- Free Shareware Edition available for download.
- Personal Edition: UD\$ 499 / 399 €
- Professional Edition: US\$ 1.407 / 995 €
- Annual Software Assurance: 20% per year.
- Layer2 Partner Program for VARs and system integrators: 15-30% discount, free NFR Edition, priority support, web site listing, lead transfer.
